PROFILE

IT technician holding a Professional Master's degree in Networks and Information Systems (with Honours), with over three years of experience at Neemba Togo, a Caterpillar dealer operating in 11 countries. I manage the subsidiary's IT infrastructure and its annual IT budget, in coordination with group IT. Trained in IT governance (COBIT), IT risk analysis and ISO 27001 security.

EXPERIENCE

IT Technician — Since May 2023

Neemba Togo (formerly Togo Équipements) · Lomé

- **Security:** oversight of access rights.
- **Academic internship project:** Wazuh SIEM/XDR deployment at Neemba Togo, with centralised security events and automated incident responses.
- **Systems & network:** administration of Active Directory, the local network, internet links and the server room.
- **Budget management:** preparation and monitoring of the subsidiary's annual IT budget (CAPEX, OPEX, hardware, licences, contracts); vendor relations and negotiation.
- **Group coordination:** Togo infrastructure focal point for group IT (hubs in Côte d'Ivoire and Senegal); deployments with the group IS and Digital Business managers.
- **Supervision:** supervision of one intern.
- **Reporting:** Power BI dashboards tracking the IT asset fleet and Microsoft 365 licences.
- **Projects:** mobile fleet portability (Moov to Togocom); site digital archiving.
- **L2/L3 support:** resolution of complex incidents and service continuity.

Support & Systems Technician (internship) — June to October 2022

Orabank Togo · Lomé

- **Internship project:** installation of a Windows Server domain controller (Active Directory, GPO, DFS, WSUS, DHCP, WDS) and secure remote access (VPN).
- **Money transfer services:** deployment of Western Union, MoneyGram and RIA for customers and the branch network.
- **L2/L3 support:** incident resolution and service continuity.

EDUCATION

Professional Master's degree, Networks and Information Systems — 2023-2025

Collège de Paris Supérieur, Lomé · With Honours ("Mention Bien")

- **Thesis:** integrating an AI model into a SIEM to enrich log analysis, detect anomalous behaviour and automate incident response.
- **Key modules:** IT governance (COBIT), internal control and IT risk, ISO 27001, security audit (EBIOS, MEHARI), business intelligence, project management (CAPM), research methodology.

Operational Activities Manager title — 2025

Ascencia Business School (France) · Assessed as a Master's degree by WES (Canada, 2026)
